Introduction

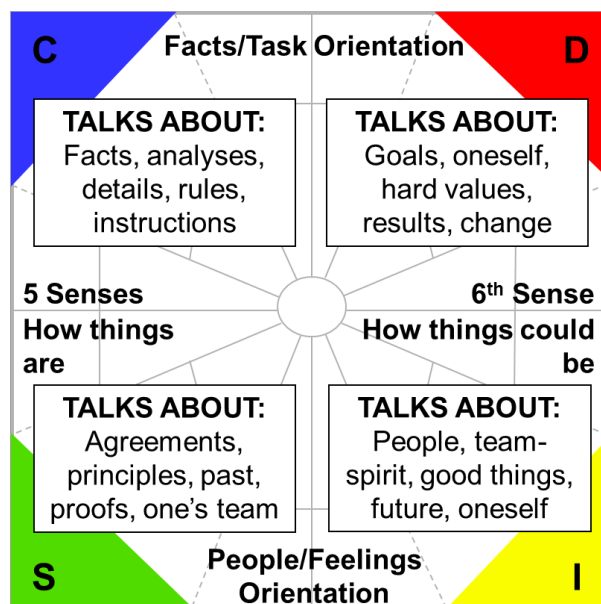

This Behavioural Assessment does not provide results that classify people. There are no good-bad categories and the system does not rank people in any way.

All of the information in this report is derived from your "natural behavioural style". It is a behavioural style that takes the least energy and effort, requires the least amount of concentration, and is usually the most comfortable to you. It is the mode that you normally use to react and is most frequently exhibited outwardly in your behaviour.

This Behavioural Assessment divides all of the different behavioural styles into four main styles. These styles are not better or worse. Each of the styles has its own advantages and disadvantages.

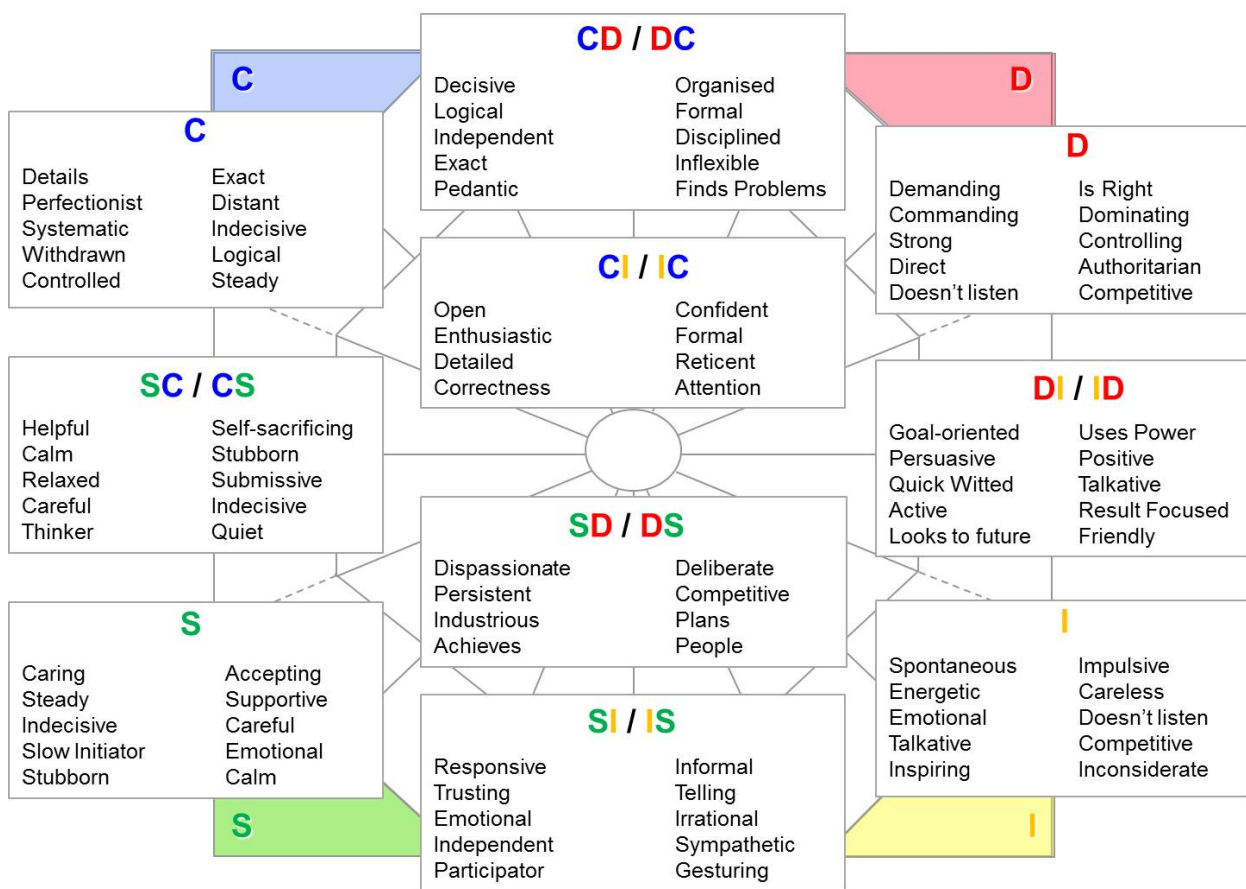

- **D**ominance - D styles are competitive, aggressive decisive and results-oriented, but can also be impatient, overbearing and even rude.
- **I**nfluence - I styles are talkative, sociable, optimistic and friendly, but can also be inattentive to detail, overly talkative and emotional.
- **S**teadiness - S styles are calm, helpful, patient, modest and laid back, but also need stability and security and, therefore, help with change.
- **C**ompliance - Precise, logical, matter-of-fact, analytical and careful, but can also focus too much on details and lose the big picture.

How to identify the Behavioural Styles

Styles and the Extended DISC Diamond

Extended DISC identifies and reports on 160 behavioural styles. The below graphic shows the diamond and adjectives associated with 10 of these behavioural styles.

Extended DISC - Profile

The following profiles are a visual representation of your behavioural style. They are based on your responses to the online questionnaire and have been calculated by your "most" and "least" selections into a frequency distribution of each of the behavioural styles - D, I, S and C.

Profile I - your adjusted style (conscious behaviour) shows how you believe you must adjust to meet the demands of your present environment.

Profile II - your natural style (unconscious behaviour) remains fairly stable, but not rigid, over your lifetime. It is the style that is more comfortable to you and uses the least energy.

There are no good or bad profiles. Just different.

Profile I - Perceived Need to Adjust

Profile II - Natural Style

Flexibility Zones

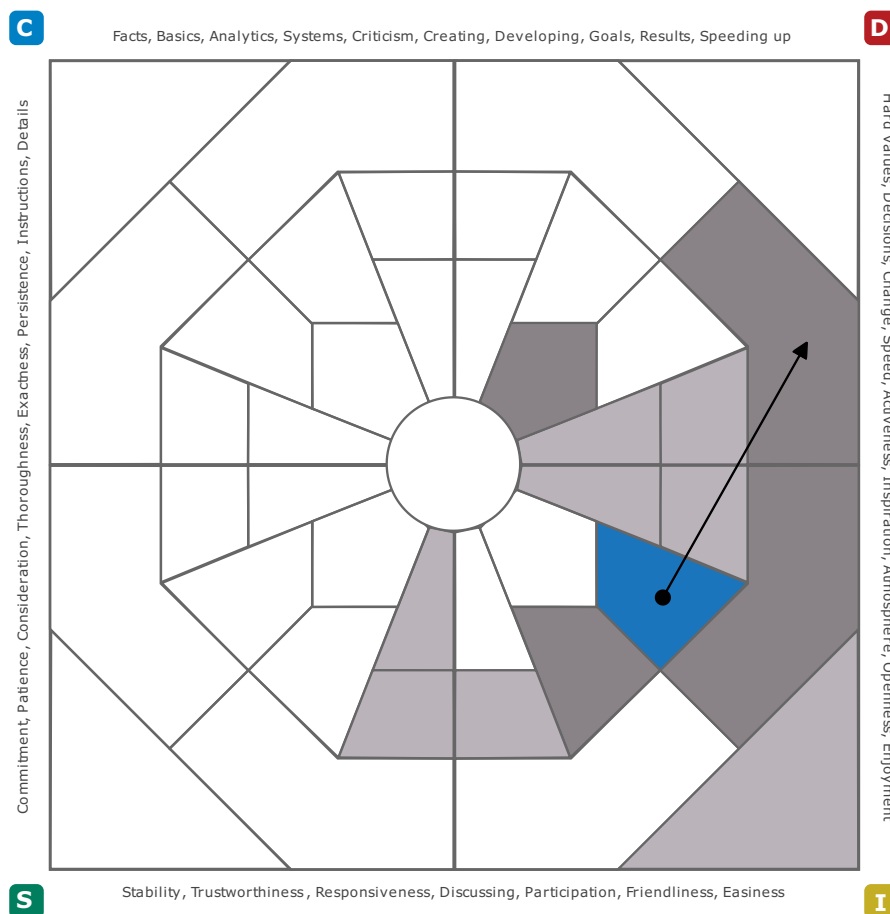

The Extended DISC Diamond visually shows what behavioural styles are the most comfortable to you and what styles require the most energy from you.

The deepest shade on the Diamond shows the location of your natural behavioural style. This is your most natural and comfortable behavioural style.

The remaining shadings demonstrate the behavioural styles that are most comfortable and where you can easily develop.

The white areas of the Diamond illustrate the behavioural areas that require the most energy, effort and concentration from you.

The further you move from your deepest shade, the more energy required.

How you may come across to others?

This page is a description of how you are typically seen by others. While this page describes your typical behaviour, a person can modify their conscious behaviour to suit a particular situation. When reading this page, it will help you to develop an overall picture of yourself. *Note: It is important to understand that the following comments do not take into account "learned behaviour" as you may have addressed many of the issues a person might observe in your behaviour.*

Attributes

Social, pleasant, sociable, thorough, organised, goal-oriented, ambitious, independent, emotionally unyielding, nice, easy to approach, people-oriented.

Motivators

Sam is motivated by social human contacts, good human relationships, acceptance in the team and co-operation. Actually he is not a person who could work for others, but he likes to create good environment and enjoys putting people in a good mood. He likes independence inside an organised company. Sam also needs a certain amount of freedom.

Tries to avoid

This type of person does not like strict instructions nor chains that make his work boring and limited. He does not like an exaggerated pedantic attitude nor faultfinders. Sam has difficulty approaching people who do not know how to have fun or cannot enjoy each others' company.

Communication style

This person has sometimes been described as a pleasant, people-oriented but purposeful conversationalist. He is able to encourage and inspire people, take the team's interest into account and guide his team towards the goal. He is not so receptive a listener as he seems.

Decision making

He can certainly be a good, deliberate decision maker in his field. In new matters, he may superficially analyse the facts and to some extent trusts his intuition. Sometimes he can be cheated by involving emotions.

Ideal manager-leader

His manager/leader should be able to stop and move forward purposefully. The manager/leader must be able to listen, discuss things besides business and be easy to approach. From time to time the manager/leader has to give him energy, especially when beginning new tasks and when different opinions arise.

In a team environment you are:

Influencer

An influencer is someone who creates ideas and wants to proceed and who has a good ability to influence the other group members. They don't stay in one place hesitating and deliberating but believe in their own instinct and spontaneity. They like change and taking part in many different kinds of groups, situations and roles. Other group members see them as an open and sociable person but somewhat superficial and self-absorbed. In reality they are just so full of action that they don't have time to stop and deliberate other people's worries, even if they would like to. They like to bring out their own opinions and try to persuade others onto the side of their group. They aren't very patient listeners. They have to stand out in a group somehow; they find it awful to be an average person in an average group. Concentrating on one thing is difficult for them because they are a lot better at thinking up ideas and starting them than finishing them.

An attitude towards team work

- A means to get people's attention
- A way to get the group motivated
- An opportunity to delegate boring routines away

A role in a team

- The one who gives a push to a conversation
- The one who introduces new thoughts
- The one who stops hesitation

A role as a decision maker

- Wants to make quick decisions
- Brings up decisive ideas
- Doesn't analyse all the alternatives

A role as a motivator

- Creates group enthusiasm
- Motivates by speaking
- Supports and encourages

A role as a performer

- Aims at simplicity
- Does not deliberate for long
- Applies rules

How does your profile fit within your role?

Each slider below shows your flexibility within the competencies of Time Management, Communication and Management / Leadership. Each competency has been graded on a scale from -5 to 0 or 0 to +5. A grade below -1 means this competency would require more energy. If you score from -1 to 1 this area can be developed comfortably. A score of 2 or more means this competency requires very little energy from you.

As with the flexibility diamond, this does not mean you are not capable it simply requires more energy. *This is not a "can or cannot" scale.*
